Louise Stoney, Co-Founder
Opportunities Exchange
Overview

- Theory of change
- Range of approaches and entry points
- Shared Services on the web
- Staff-sharing models
- Alliance results
- Why is it important?
- Getting started
- Questions
Theory of Change: Leadership Capacity-Building

• “Building adult capabilities improves child outcomes” (Shonkoff)
• Shared Services is a strategy to build pedagogical and business capacity
  • Pathway to higher quality and improved child outcomes
  • Requires ECE businesses to work together, sharing:
    • Staffing
    • Resources and learning
    • Service delivery
    • Quality improvement focus
ECE Capacity: The Typical Landscape

- Stand-alone centers or homes
  - Single director responsible for many conflicting tasks
- Lack of scale
  - Small settings that can’t serve enough children to break even
- Limited (or no) investment in quality improvement
  - Few centers/homes have resources to boost and sustain quality
- Unequal competition
  - Public schools or large agencies with infrastructure, resources and business models that work
- Price-sensitive customers
  - Unwilling or unable to pay what it costs to provide high quality care
Most centers are very small (national average is 75 children.)
The typical child care center director is responsible for multiple tasks.
I smile to hide how completely overwhelmed I am.
Typical solution: Hire More Staff
But…Sometimes Less is More…

- High administrative costs limit investment in teachers
- Shared Services enables dollars and time to be **reinvested in teaching and learning**
  - More time for teachers and site directors to focus on children
  - Staff able to focus on using mentoring, reflective practice, assessments to improve teaching and learning
  - Potential for higher teacher wages and benefits
Shared Services Benefits

- **Economies of scale**
  - Sharing staff promotes efficiency; eliminates duplication of effort
  - Automation/technology reduces time on task and errors
  - Joint planning and procurement can reduce costs

- **Economies of specialization**
  - Shared expertise, greater efficiency, fewer errors
  - Sharing tasks across organizations allows professionals to do more of what they like to do and do best
  - Sharing and automating administrative tasks allows program leaders to focus on pedagogical leadership
Economies of Specialization: Stronger Finance and Business Management

The Iron Triangle of ECE Finance

- Ensure full enrollment, every day in every classroom
- Collect tuition and fees, in full and on time
- Revenue covers per-child cost (tuition, fees, and 3rd-party funding)
Economies of Specialization: Stronger Pedagogical Leadership

• Site Directors can serve as instructional leaders
• Shared curriculum coordinators/quality improvement coaches can help deepen teaching and learning
• Teachers meet regularly, in professional learning communities, to reflect on their work
• Classroom teachers can make home visits (with Site Director support)
• Children receive the individualized, reflective teaching they need to succeed
What is (and is not) Shared Services?

Shared Services is NOT…
• Simply a way to save money
• Just a provider network
• A franchise or a project or a template
• The same in every community

Shared Services IS..
• A change in roles/responsibilities
• A capacity-building strategy
• A way to reallocate resources toward child outcomes
A Range of Approaches and Entry Points

Information Sharing  Networking  Collaboration
Benefits: Web-Based ECE “Knowledge Hub”

- Price discounts
- Time savings (e.g. parent handbook)
- “One-stop shopping” for tools and resources
  - Generic ECE tools and info
  - State specific rules, guidelines, policies, e.g. QRIS
- Learn/benefit from other states’ experiences
A Range of Approaches and Entry Points

- Web-Based ECE “Knowledge Hub”
- Peer Group Best Practices Sharing
- 1 or 2 Shared Resources, e.g. maintenance, training

Information Sharing → Networking → Collaboration
Benefits: Networking

Information-sharing via web-based “Knowledge Hub”, plus (e.g.):

- Shared maintenance:
  - Cost savings
  - Higher quality, increased reliability and availability
  - Less staff time required to procure, oversee, supplement

- Shared training and PD:
  - Cost savings
  - Higher quality due to focused “vetting”
  - More efficient scheduling
A Range of Approaches and Entry Points

- Web-Based ECE “Knowledge Hub”
- Peer Group Best Practices Sharing
- 1 or 2 Shared Resources, e.g., maintenance, training
- Shared Back-Office
- Shared Core Values; program leadership works as team; shared staff in many areas

Information Sharing → Networking → Collaboration
Benefits: Collaboration - Intensive

All the benefits of Information-Sharing and Networking, plus:

• Greater functional expertise, e.g. fiscal management, HR
• Less duplication of effort, e.g. reporting and entering data
• Greater job satisfaction – increased career opportunities, focus on what one does best
• Teachers and directors focused more on pedagogy
• Better outcomes for kids
Shared Services in Action
Web-Based “Knowledge Hub”

• Web portal for centers and home-based providers
  • **Cost savings** – Discounts on supplies, services
  • **Time savings** – Adaptable templates for handbooks, etc; on-line training
  • **Quality supports** – Classroom, HR, and pedagogical leadership tools, linked to Quality Rating and Improvement Systems
Welcome to ECE Shared Resources - a Shared Services initiative in Early Childhood Education to improve quality, share learning and reduce costs. ECE Shared Resources features a website full of practical tools for childcare program managers.

Staff-Sharing Models
A Range of Approaches and Entry Points

Web-Based "Knowledge Hub"

Peer Group Best Practices Sharing

1 or 2 Shared Resources, e.g. maintenance, training

Shared Back-Office

Shared Core Values: program leadership works as team; shared staff in many areas

Information Sharing → Networking → Collaboration
Task-Specific Collaboration

Shared Maintenance, Training

Center 1

Center 2

Center 3

Center 4
Examples

California:
  • San Francisco Early Learning Alliance (first steps)
    • Shared floater and maintenance person

Pennsylvania:
  • Philadelphia Early Learning Alliance
    • Focus is initially on shared professional development and mentor teacher, substitute pool, and maintenance
Contract with Third Party

Third Party
e.g. Back Office Operations

Center 1 → Third Party → Center 2

Center 3 → Third Party → Center 4
Examples

• Statewide Early Learning Alliance, Portsmouth NH
  • Was “Seacoast ELA”
  • Original group of 10 centers – now statewide
  • Maintenance and back office services from property management firm
  • (Alliance members also collaborate on grant writing, training, and communities of practice)

• Infant-Toddler Family Day Care Alliance, Fairfax VA
  • 100+ family care providers
  • Back office services, including marketing and enrollment
Results: New Hampshire Alliance

• Costs savings to reinvest into quality; combined members saving over $100,000 annually, e.g.:
  • $5,200 annual savings on commercial insurance
  • 17-24% on food costs
  • 12% annual savings on trash removal
• Significant administrator time savings
• More robust professional development
• Stronger relationships with funders and state
• Collaboration and coordination of intellectual assets across programs
“Hub” Center Provides Services

“Hub” Center

Center 2

Center 5

Center 3

Center 4
Example: Chambliss Center for Children
Chattanooga TN

Large child care center (300+ children) provides management to 10 other community-based programs

• Each contract site has its own non-profit status, board
• Central services include:
  • Financial (payroll, benefits, billing)
  • HR and staff recruitment
  • Food program administration
  • Training and professional development
  • Classroom observations and child assessment
  • Maintenance
  • Fund development
• Small sites have shared directors, who work as a team
Results: Chambliss Center

• 97% of children served score well on kindergarten screening
• Centers are able to link low-income families to comprehensive health, mental health and social services
• Staff in smaller sites now have better wages, health and retirement benefits, career ladder
• Smaller sites have access to capital and grants, more sustainable
Network Approach

Center 1 – Back office

Center 4 – Food/CACFP

Center 2 - Mentoring

Center 3 – Sub Pool
Example: San Francisco Early Learning Alliance

- Fiscal and data management staff employed by shared back office
- HR staff housed in one participating center, with shared access for all participating centers
- Shared floater among two sites
- Shared maintenance among two sites
Consortium with Central Office
Example: Nebraska Early Childhood Collaborative

Consortium (LLC) of 4 sites; 2 Educare centers, 2 new Infant-Toddler centers

- Central shared functions:
  - Enrollment, fee collection, billing
  - Fiscal management, oversight, leadership
  - HR and insurance
  - Purchasing
  - Professional development, mentoring
  - TA and quality monitoring
  - Workforce development

- Critical element: intense focus on Educare values
Addressing a Key Dilemma

• Typically, either a center doesn’t have an administrative team, and the director does everything …
  • Leads to burnout
  • Finances and/or pedagogy slips
• … OR the center invests in administrative team, to the detriment of classroom staff
  • Not enough resources focused on improving and sustaining high quality teaching and learning
• Shared Services provides a way to invest in BOTH business and pedagogical leadership
Institutional Capacity = Leadership

Pedagogical Leadership + Business Leadership → Improved Child Outcomes
Knowledge and Leadership

- Are assets that require investment of time and money
- Are transferrable assets – not linked to a specific location or site
- Can be a shared asset, to benefit multiple organizations

In short, *if multiple smaller programs combine resources to build knowledge and share leadership, the collective capacity can be very significant.*
Getting Started

• Go to Opportunities Exchange website: www.opportunities-exchange.org
  • Profiles of current alliances
  • Tools, such as examples of management agreements
  • Articles and presentations
  • Videos and multi-media
  • Searchable database

• ECE Shared Resources national web portal: www.ecesharedresources.com

• Talk to your colleagues; explore potential partners
For More Information….

Go to

www.Oppportunities-Exchange.org

Site includes articles, examples, tools, resources, video clips and more!
