Success Story: Mary Wardlaw
From $200K to $970K

“Kris - I wasted so much time and money on my MBA degree, only to find it was of little help in my world. I was ready to throw in the towel, down to fewer than 55 kids – many of whom were paying an hourly rate and attending only a few hours per week. When we met, I was lucky to generate $200,000 in yearly sales – last year I was $30K short of one MILLION! For me, and my little center in my little town – that is absolutely mind-blowing. We have a capacity of 90, with 98 FTE, and we’re still growing. We’ve filled all of the little spots here and there. In short, knowing you set me in a new direction, giving me hope and setting me on the path to personal and professional transformation. And when I consider the relationships forged with other owners because of you… I am just so grateful.”

Mary Wardlaw, Owner - Niles, Michigan

We literally have HUNDREDS of stories just like this. We feel so blessed to have made such an impact.

"I have learned so much from Kris Murray over the past 3 years. From attending her success summits to listening to the monthly coaching calls to reading her articles and watching her webinars and videos, I have obtained a ton of knowledge and skills from her that has positively affected my childcare business. My school continues to stay full and on a wait list. We are retaining families and teachers, and I am now working on my business on my leisure with very capable staff. Now we are building a plan for expansion. Thank you to Kris Murray and her team for continuing to lead us forward to the next step to make our business a success and raise the quality of care and education for our school and our industry!”
How We Make a **Difference**  
*One School Owner at a Time*

Let’s talk message.

So...What’s the definition of a commodity?

**Commodity:**
“A product or service that is treated as the *same* without regard as to who produced it.”
Commodity:
“A product or service that is treated as the same without regard as to who produced it.”

“But Kris, it’s all about price and location.”

It’s Better to Be DIFFERENT than GOOD

• Parents assume you do a quality job (you’re good at what you do)
• They haven’t been educated about the real differences in child care and preschool options
• They don’t know what accreditation really is or what it requires
• At the end of the day, they really just want to know how your program is DIFFERENT than the others they are considering

Key Insight: It’s YOUR job to help them understand the differences and make an educated choice!

If you leave it up to them to figure out your differentiating value...

...they have no choice but to decide based on price and/or location.
Your Message is What Truly Sets You Apart

Three Big Elements of Your Differentiating Message:

1. **Concrete, Compelling** Points of Difference that are easy for Parents to “Get”
2. Backed up by Reviews & Testimonials

We also sometimes refer to this as your “value platform”

How Strong is the Value Platform of Your Message?

- Enables customers & prospects to clearly, quickly understand how you improve the lives of children (and parents)
- Highlights your top differentiators
- Easy to understand
- Compelling
- *Builds trust* in your program
Five Steps to Win More Enrollments:
How to Identify Your “Differentiating Value”

1. Competitive Analysis: Get clear on what your competitors are saying and what they truly offer that’s unique
2. Market Analysis: Know your market (what do your clients and prospects really value?)
3. Identify the top 3-4 differences you have that are important to your market
4. Play with the verbiage to make them “pop”
5. If you aren’t competitive enough, ADD MORE VALUE ☺

Recent Case Study: Leading Preschool Franchise

*I called them a few months ago...*

**What I heard:**
- Meals included
- Open 6:30a-6:30p
- 3 snacks
- Had to ask her to elaborate on differences – then put on hold for 2nd time and I could easily have hung up
- "Our Corporate curriculum", daily schedule and themes
- A very unstructured presentation of all sorts of curriculum topics and enrichment (boring and way too long)
- Did not ask for my info or use my child's name in the conversation (no rapport)

How I would fix it:
• All-inclusive STEAM curriculum – Arts, science, tech and math, dance - all included
• Unsurpassed kindergarten readiness – Here’s why (and proof points if you have them)
• Outdoors every day – both structured learning and free play – “Here’s what the kids did outside today or yesterday…”
• Much shorter, impactful, and memorable

What Attendees Are Saying

“Attending the Summit was the BEST investment I’ve made for my Montessori center, hands down! I attended my first Child Care Summit Summit in October 2017 in Chicago. I thought, ‘What a great way to meet some new people that share the same love for childcare as myself!’ NEVER expecting to walk out last month having learned something new EVERYDAY! We’ve enrolled 26 students just this month and the instructors are on fire! I must say thanks to you! Honestly, when we attended the Summit we truly thought we were awesome and we were doing everything we needed to be doing. Unimagined NO! The truth is, the Summit has changed my business. I want to say thank you, thank you, thank you! This is truly the BEST investment I have made for our business!”
