

A Training Geiger Counter: Monitoring the Use of Radioactive Elements

Think about the ways in which you're currently using any of these radioactive elements. Place a mark on the Geiger Counter reader that corresponds to the frequency at which your training programs use the radioactive elements and decide if you need to consider alternative sources of energy in your initiatives.

	Not Enough (-1)	Never (0)	Sometimes (+1)	Always (+2)	Ways I can improve the use	Alternative sources of energy I could be using
